2. This Regulation applies for the 2003 and subsequent taxation years.

PART II

DETERMINATION OF TAX RATES IF SUBSECTION 311 (7) OR 312 (7) OF THE ACT APPLIES

General tax rate if s. 311 (7) or 312 (7) of the Act applies

3. (1) This section provides for the manner in which the tax rates on property in a property class are to be determined under subsections 311 (7) and 312 (7) of the Act if the conditions set out in those subsections are satisfied.

(2) The tax rate for the general levy for the taxation year for the property class shall not exceed the sum of,

- (a) the maximum class rate for the year determined for the property class under section 8; and
- (b) the additional rate for the property class for the year that is determined under subsection (3) if,
 - (i) the municipality has calculated the tax rate for the property class pursuant to a regulation made under subsection 361 (11) of the Act, and
 - (ii) the property class is one of the commercial classes or industrial classes.

(3) The additional rate for a property class for a taxation year for the purposes of clause (2) (b) is determined in the following manner:

1. Determine the lowest rate that would raise an amount sufficient to fund rebates made under section 361 of the Act in respect of property in,
 - i. the commercial classes, if the property class is one of the commercial classes, or
 - ii. the industrial classes, if the property class is one of the industrial classes.
2. If the property class is one of the commercial classes, allocate to the property class the rate that will result in the rates on all the commercial classes being in the same proportion to one another as the tax ratios established under section 308 of the Act for the commercial classes.
3. If the property class is one of the industrial classes, allocate to the property class the rate that will result in the rates on all the industrial classes being in the same proportion to one another as the tax ratios established under section 308 of the Act for the industrial classes.
- (4) In this section, “commercial classes” and “industrial classes” have the meanings ascribed to those terms by subsection 308 (1) of the Act.

Municipal levy restriction thresholds

4. The following tax ratios are prescribed for the purposes of subsections 311 (7) and 312 (7) of the Act:
 1. 2.74 for the multi-residential property class.
 2. 1.98 for the commercial classes.
 3. 2.63 for the industrial classes.

Maximum tax ratios for 2003

5. (1) If section 8 of Ontario Regulation 171/01 applied to a property class in a municipality that was not an upper-tier or lower-tier municipality in 2002, the tax ratio established by the municipality under section 308 of the Act for the property class for 2003 shall not exceed the tax ratio calculated in the following manner:

1. Identify the general levy tax rate for the residential property class, as determined by the municipality for 2002 under section 368 of the Old Act.
2. Determine the increased residential tax rate by adding the tax rate identified in paragraph 1 and the rate for the special levy for the residential property class for 2002, as determined under section 8 of Ontario Regulation 171/01.

3. Divide the 2002 general levy tax rate for the property class that is subject to subsection 7 (2) of Ontario Regulation 171/01, as determined by the municipality for 2002 under section 368 of the Old Act, by the increased residential tax rate determined under paragraph 2.

(2) If section 8 of Ontario Regulation 171/01 applied to a property class in an upper-tier municipality in 2002, the tax ratio established by the municipality under section 308 of the Act for the property class for 2003 shall not exceed the tax ratio determined under the following rules:

1. Identify the general upper-tier levy tax rate for the residential property class, as determined by the municipality for 2002 under section 366 of the Old Act.
2. Identify the tax rate for the upper-tier special levy for the residential property class for 2002, as determined under section 8 of Ontario Regulation 171/01.
3. Multiply the upper-tier special levy tax rate determined under paragraph 2 by the upper-tier weighting factor determined under subsection (3).
4. Determine the increased tax rate for the residential property class by adding the tax rate identified in paragraph 1 and the product obtained under paragraph 3.
5. Divide the general upper-tier levy tax rate for the property class that is subject to subsection 7 (2) of Ontario Regulation 171/01, as determined by the municipality for 2002 under section 366 of the Old Act, by the increased tax rate for the residential property class determined under paragraph 4.

(3) The upper-tier weighting factor shall be determined in the following manner:

1. Determine the sum of the general levies for all property classes levied for upper-tier purposes in 2002 under section 366 of the Old Act.
2. Determine the sum of the general levies for all property classes levied for lower-tier purposes in 2002 under section 368 of the Old Act.
3. Add the amounts determined under paragraphs 1 and 2.
4. Divide the amount determined under paragraph 1 by the sum obtained under paragraph 3.

(4) For the purposes of paragraph 3 of subsection (1) and paragraph 5 of subsection (2), the general levy tax rate and general upper-tier levy tax rate for a property class that is subject to subsection 7 (2) of Ontario Regulation 171/01 excludes any additional rate for the property class referred to in clause 7 (2) (b) of that regulation.

Special levy for tax increase

6. (1) If, in 2003 or a subsequent taxation year, subsection 5 (1) or (2) or 7 (1) or (2) applies to a property class of the municipality, the municipality shall raise an amount by special levy equal to the amount by which its revenue was reduced by the application of that subsection to the property class.

(2) The special levy shall be raised under subsection 311 (4) or 312 (4) of the Act, as applicable, on all property that is not in a property class to which subsection 5 (1) or (2) or 7 (1) or (2) applies for the year.

Maximum tax ratios for 2004 and subsequent years

7. (1) If section 6 applied in the previous year, the tax ratio established by the municipality under section 308 of the Act for the property class for a taxation year after 2003 shall not exceed the tax ratio calculated in the following manner:

1. Identify the general levy tax rate for the residential property class, as determined by the municipality for the previous year under section 312 of the Act.
2. Determine the increased residential tax rate by adding the tax rate identified in paragraph 1 and the rate for the special levy for the residential property class for the previous year, as determined under section 6.
3. Divide the previous year's general levy tax rate for the property class that is subject to section 3, as determined by the municipality for the previous year under section 312 of the Act, by the increased residential tax rate determined under paragraph 2.

(2) If section 6 applied in the previous year, the tax ratio established by the municipality under section 308 of the Act for the property class for a taxation year after 2003 shall not exceed the tax ratio calculated in the following manner:

1. Identify the general upper-tier levy tax rate for the residential property class, as determined by the upper-tier municipality for the previous year under section 311 of the Act.
2. Identify the upper-tier special levy tax rate for the special levy for the residential class for the previous year, as determined under subsection 5 (2) or this subsection, whichever applied in the previous year.
3. Multiply the upper-tier special levy tax rate identified in paragraph 2 by the upper-tier weighting factor for the taxation year, as determined under subsection (3).

4. Determine the increased tax rate for the residential property class by adding the tax rate identified in paragraph 1 and the product obtained under paragraph 3.
5. Divide the previous year's general upper-tier levy tax rate for the property class that is subject to section 3, as determined by the municipality for the previous year under section 311 of the Act, excluding any additional rate calculated under subsection 3 (2), by the increased tax rate for the residential property that is determined under paragraph 4.
- (3) The upper-tier weighting factor for a taxation year shall be determined in the following manner:
 1. Determine the sum of the general levies for all property classes levied for upper-tier purposes for the year under section 311 of the Act.
 2. Determine the sum of the general levies for all property classes levied for lower-tier purposes for the year under section 312 of the Act.
 3. Add the amounts determined under paragraphs 1 and 2.
 4. Divide the amount determined under paragraph 1 by the sum obtained under paragraph 3.

Maximum tax rates and revenue limit for 2003 if s. 3 (2) applies

8. (1) If the tax rates for the general levy imposed for 2003 or a subsequent taxation year by a local municipality under section 312 of the Act or by an upper-tier municipality under section 311 of the Act would otherwise result in revenues that would exceed the revenue limit for the municipality for the year, as determined under subsection (2), the maximum property class tax rate for the year for a property class in the municipality to which subsection 3 (2) applies in the year shall be the rate determined as follows:

1. Determine the total weighted assessment for the municipality by adding the weighted assessments for all of the property classes in the municipality, as determined under subsection 12 (4).
2. For the general upper-tier levy or local municipal levy, determine the residential rate for the taxation year by dividing the revenue limit for the municipality, as determined under subsection (2) or (4), as the case may be, by the total weighted assessment for the municipality determined under paragraph 1.
3. The maximum property class tax rate for the taxation year for a property class in the municipality to which subsection 3 (2) applies is the product determined by multiplying the residential rate for the taxation year, determined under paragraph 2, by the tax ratio for the property class for the taxation year as determined under section 5 or 7, whichever applies for the year.
4. For the purposes of paragraph 3, the maximum tax ratio for a property class for a taxation year is the tax ratio determined for the year under section 5 or 7 or, in the case of a local municipality that is a lower-tier municipality, the tax ratio adopted by the upper-tier municipality for the taxation year.

(2) The revenue limit for an upper-tier or local municipality for 2003 shall be determined in the following manner:

1. Identify the general levy tax rate for each property class, as determined by the municipality for 2002 under section 366 or 368 of the Old Act.
2. Increase the tax rate determined under paragraph 1 by adding the special levy tax rate for the property class for 2002, if any, as determined under section 8 of Ontario Regulation 171/01.
3. Determine the revenue for 2003 for each property class by multiplying the tax rate for the property class, as determined under paragraph 2, by the sum of the assessments for all properties in the property class.
4. Determine the revenue limit for the municipality for 2003 by adding the revenue for 2003, as determined under paragraph 3, for all property classes in the municipality.

(3) For the purposes of subsection (2), the assessment for a property in a property class is the assessment for the property for 2002,

- (a) less the amount, if any, equal to the same percentage of the assessment as the percentage reduction, if any, under section 368.1 of the Old Act in the tax rate applicable to the property for 2002; and
- (b) after all adjustments to the assessment, if any, made under subsection 366 (2.1) or 368 (2.1) of the Old Act.

(4) The revenue limit for an upper-tier or local municipality for a taxation year after 2003 shall be determined in the following manner:

1. Identify the general levy tax rate for each property class, as determined by the municipality for the previous year under section 311 or 312 of the Act.
2. Increase the tax rate determined under paragraph 1 by adding the special levy tax rate for the property class for the previous year, if any, as determined under section 6.

3. Determine the revenue for the year for each property class by multiplying the tax rate for the property class, as determined under paragraph 2, by the sum of the assessments for all properties in the property class.
4. Determine the revenue limit for the municipality for the year by adding the revenue for the year, as determined under paragraph 3, for all property classes in the municipality.
- (5) For the purposes of subsection (4), the assessment for a property in a property class is the assessment for the property for the previous taxation year,
 - (a) less the amount, if any, equal to the same percentage of the assessment as the percentage reduction, if any, under section 313 of the Act in the tax rate applicable to the property for the year; and
 - (b) after all adjustments to the assessment, if any, made under subsection 311 (3) or 312 (3) of the Act.

PART III ADJUSTMENT TO TAXES — SUBSECTION 329 (1) OF THE ACT

Application of Part

9. This Part provides for the adjustments to be made under paragraph 3 of subsection 329 (1) of the Act for 2003 and subsequent taxation years in respect of changes in taxes for municipal purposes.

Levy change adjustment

10. (1) The amount determined under paragraph 2 of subsection 329 (1) of the Act for a taxation year in respect of a property shall be adjusted,

- (a) by increasing it by the amount determined for the year under subsection (2), if the amount determined under subsection (2) is positive; or
- (b) by decreasing it by the amount determined for the year under subsection (2), if the amount determined under subsection (2) is negative.

(2) The amount referred to in clauses (1) (a) and (b) for a taxation year is determined by multiplying the amount determined under paragraph 2 of subsection 329 (1) of the Act for the taxation year by the adjustment fraction calculated under subsection (3) for that year.

(3) The adjustment fraction for a taxation year shall be calculated using the formula,

$$\frac{A - B}{B}$$

in which,

“A” is the actual tax rate for the property for the taxation year, as described in section 11, and

“B” is the notional tax rate to raise the previous year’s levies for the property, as determined under section 12.

Actual tax rate for a taxation year

11. (1) For the purposes of subsection 10 (3), the actual tax rate for a property for a taxation year means the sum of each tax rate for the taxation year for municipal or school purposes applicable to property in the property class and local municipality the property is in.

(2) Despite subsection (1), a special local municipality levy or special upper-tier levy for a taxation year applicable to property in a property class shall be included as a tax rate in the calculation of the actual tax rate only if the levy applies to at least 50 per cent of the sum of the assessments of all properties in that property class.

Notional tax rate to raise the previous year’s levies

12. (1) For the purposes of subsection 10 (3), the notional tax rate to raise the previous year’s levies for a property means, in respect of a taxation year, the rate determined under the following rules for the property class and municipality the property is in:

1. For every general or special municipal levy for the previous year that applied to property in the municipality, determine the previous year’s levy amount under subsection (2).
2. Despite paragraph 1, only general or special levies that applied in the previous year to at least 50 per cent of the sum of the assessments for the taxation year for property in the property class in the municipality are included for the purposes of this subsection.
3. Determine the total weighted assessment for the municipality by adding the weighted assessment for the taxation year, as determined under subsection (4), for each property class to which the levy applied.
4. For each levy, determine the residential rate for the previous year by dividing the previous year’s levy amount, referred to in paragraph 1, by the total weighted assessment determined under paragraph 2.

5. For each levy, determine a class rate for each property class for the taxation year by multiplying the residential rate for the previous year, as determined under paragraph 4, by the tax ratio for the property class for the taxation year.
 6. For each property class, the notional tax rate to raise the previous year's levies is the sum of the class rates for the previous year, as determined under paragraph 5, for the property class and the tax rate for the taxation year for school purposes.
- (2) For the purposes of paragraph 1 of subsection (1), the previous year's levy amount shall be determined in the following manner:
1. Apply the tax rate for the previous year for each property class to the total assessment for property in the property class to which the levy applied, as determined under subsection (3).
 2. The previous year's levy amount is the sum of the amounts determined under paragraph 1 for the property classes.
- (3) For the purposes of paragraph 1 of subsection (2), the total assessment for property in a property class is determined by taking the sum of the assessments for the previous year for each property in the property class and adjusting the sum for the changes in assessment that would produce the changes in taxes referred to in,
- (a) paragraphs 2 and 3 of subsection 318 (6) of the Act, if the property class is not subject to Part IX of the Act; or
 - (b) paragraphs 2, 3, 5 and 6 of subsection 329 (2) of the Act, if the property class is subject to Part IX of the Act.
- (4) For the purposes of paragraph 2 of subsection (1), the weighted assessment for a taxation year for each property class to which the levy applies is calculated using the formula,

$$C \times D$$

in which,

"C" is the sum of the assessments for the taxation year for properties in the property class to which the levy applies,

"D" is the tax ratio for the property class for the taxation year.

(5) For the purposes of subsection (4), the assessment for a taxation year for a property in a property class shall be reduced by the same percentage of the assessment as the percentage reduction, if any, under section 313 of the Act in the tax rate applicable to the property for the taxation year.

Merged area deemed to be local municipality

13. If a municipal restructuring has occurred and tax rates for municipal purposes have been adopted for the taxation year pertaining exclusively to a merged area, the merged area shall be deemed to be a local municipality for the purposes of sections 10, 11 and 12 in respect of levies that apply only in the merged area.

Graduated tax rates

14. For the purposes of this Part, the tax rate for a property with respect to which a by-law under section 314 of the Act applies is the tax rate that would have applied if section 314 of the Act had not applied.

Previously unorganized territory

15. The following applies for the taxation year in which unorganized territory becomes part of a municipality and for the following two taxation years:

1. No account shall be taken of any adjustment made under paragraph 3 of subsection 447.68 (1) of the Old Act for 2002 and no adjustment shall be made under paragraph 3 of subsection 329 (1) of the Act in respect of changes in taxes for municipal purposes.
2. The property shall be deemed not to be part of the municipality for the purposes of this Part.

PART IV PRESCRIBED ADJUSTMENTS UNDER SECTION 330 OF THE ACT

No adjustment for changes in taxes for school purposes

16. No adjustment shall be made for the purposes of the following provisions of the Act in respect of changes in taxes for school purposes:

1. Subsection 330 (2).
2. Paragraph 2 of subsection 330 (4).
3. Paragraphs 2 and 6 of subsection 330 (8).

Adjustment for 2003 and subsequent years, various provisions

17. (1) This section applies for 2003 and subsequent taxation years for the purposes of subsection 330 (2), paragraph 2 of subsection 330 (4) and paragraph 2 of subsection 330 (8) of the Act.

(2) The amount of the adjustment to the taxes for a taxation year in respect of changes in taxes for municipal purposes shall be determined using the formula:

$$E \times \frac{1}{F+1}$$

in which,

“E” is the amount of uncapped taxes for the taxation year, and

“F” is the adjustment fraction for the taxation year determined under subsection 10 (3).

Adjustment, para. 6 of s. 330 (8) of the Act

18. (1) This section applies for 2003 and subsequent taxation years for the purposes of paragraph 6 of subsection 330 (8) of the Act.

(2) The amount determined under paragraph 5 of subsection 330 (8) of the Act in respect of the taxation year shall be adjusted,

- (a) by increasing it by the amount determined under subsection (3), if the amount determined under subsection (3) is positive; or
- (b) by decreasing it by the amount determined under subsection (3), if the amount determined under subsection (3) is negative.

(3) The amount referred to in clauses (2) (a) and (b) is the amount determined by multiplying the amount determined under paragraph 5 of subsection 330 (8) of the Act by the taxation year adjustment fraction determined under subsection 10 (3).

Taxes not to be lower than uncapped taxes

19. Despite subsection 330 (8) of the Act, if the taxes for municipal and school purposes for a taxation year, as determined under that subsection, are less than the uncapped taxes for the year, the taxes for municipal and school purposes for the year shall be equal to the uncapped taxes for the year.

Previously unorganized territory

20. The following applies for the taxation year in which unorganized territory becomes part of a municipality and for the following two taxation years:

1. No adjustment shall be made under any of the provisions of the Act listed in section 16 for the taxation year in which the unorganized territory becomes part of the municipality or for the following two taxation years.
2. Section 19 does not apply.
3. The property shall be deemed not to be part of the municipality for the purposes of this Part.

- (a) the party making the claim shall serve and file a financial statement (Form 13 or 13.1) with the document that contains the claim; and
- (b) the party against whom the claim is made shall serve and file a financial statement within the time for serving and filing an answer, reply or affidavit in response to the motion, whether the party is serving an answer, reply or affidavit in response to the motion or not.

FORM 13 FOR SUPPORT CLAIM WITHOUT PROPERTY CLAIM

(1.1) If the application, answer or notice of motion contains a claim for support but does not contain a property claim or a claim for exclusive possession of the matrimonial home and its contents, the financial statement used by the parties under these rules shall be in Form 13.

FORM 13.1 FOR PROPERTY CLAIM WITH OR WITHOUT SUPPORT CLAIM

(1.2) If the application, answer or notice of motion contains a property claim or a claim for exclusive possession of the matrimonial home and its contents, the financial statement used by the parties under these rules shall be in Form 13.1, whether a claim for support is also included or not.

EXCEPTION, CERTAIN SUPPORT CLAIMS

(1.3) If the only claim for support contained in the application, answer or notice of motion is a claim for child support in the amount specified in the table of the applicable child support guidelines, the party making the claim is not required to file a financial statement, unless the application, answer or notice of motion also contains a property claim or a claim for exclusive possession of the matrimonial home and its contents.

(2) Subrule 13 (2) of the Regulation is amended by striking out “answer, reply or notice of motion” and substituting “answer or notice of motion”.

(3) Subrule 13 (3) of the Regulation is revoked and the following substituted:

(4) Subrule 13 (7) of the Regulation is revoked and the following substituted:

☐ **IN THIS CASE, THE APPLICANT IS CLAIMING DIVORCE ONLY.**

TO THE RESPONDENT(S): A COURT CASE FOR DIVORCE HAS BEEN STARTED AGAINST YOU IN THIS COURT. THE DETAILS ARE SET OUT ON THE ATTACHED PAGES.

THIS CASE IS ON THE STANDARD TRACK OF THE CASE MANAGEMENT SYSTEM. No court date has been set for this case but, if you have been served with a notice of motion, it has a court date and you or your lawyer should come to court for the motion. A case management judge will not be assigned until one of the parties asks the clerk of the court to schedule a case conference or until a notice of motion under subrule 14(5) is served before a case conference has been held. If, after 200 days, the case has not been scheduled for trial, the clerk of the court will send out a warning that the case will be dismissed in 30 days unless the parties file proof that the case has been settled or one of the parties asks for a case conference or a settlement conference.

IF YOU WANT TO OPPOSE ANY CLAIM IN THIS CASE, you or your lawyer must prepare an Answer (Form 10 — a blank copy should be attached), serve a copy on the applicant and file a copy in the court office with an Affidavit of Service (Form 6B). **YOU HAVE ONLY 30 DAYS AFTER THIS APPLICATION IS SERVED ON YOU (60 DAYS IF THIS APPLICATION IS SERVED ON YOU OUTSIDE CANADA OR THE UNITED STATES) TO SERVE AND FILE AN ANSWER. IF YOU DO NOT, THE CASE WILL GO AHEAD WITHOUT YOU AND THE COURT MAY MAKE AN ORDER AND ENFORCE IT AGAINST YOU.**

IF YOU WANT TO MAKE A CLAIM OF YOUR OWN, you or your lawyer must fill out the claim portion in the Answer, serve a copy on the applicant(s) and file a copy in the court office with an Affidavit of Service.

- If you want to make a claim for support but do not want to make a claim for property or exclusive possession of the matrimonial home and its contents, you **MUST** fill out a Financial Statement (Form 13), serve a copy on the applicant(s) and file a copy in the court office.
- However, if your only claim for support is for child support in the table amount specified under the Child Support Guidelines, you do not need to fill out, serve or file a Financial Statement.
- If you want to make a claim for property or exclusive possession of the matrimonial home and its contents, whether or not it includes a claim for support, you **MUST** fill out a Financial Statement (Form 13.1, not Form 13), serve a copy on the applicant(s), and file a copy in the court office.

YOU SHOULD GET LEGAL ADVICE ABOUT THIS CASE RIGHT AWAY. If you cannot afford a lawyer, you may be able to get help from your local Legal Aid Ontario office. (See your telephone directory under **LEGAL AID**.)

RÈGLEMENT DE L'ONTARIO 92/03

pris en application de la

LOI SUR LES TRIBUNAUX JUDICIAIRES

pris le 11 février 2003
approuvé le 19 mars 2003
déposé le 21 mars 2003

modifiant le Règl. de l'Ont. 114/99
(Règles en matière de droit de la famille)

Remarque : Depuis la fin de 2002, le Règlement de l'Ontario 114/99 a été modifié par les Règlements de l'Ontario 56/03 et 91/03. Les modifications antérieures sont indiquées dans la Table des règlements publiée dans la *Gazette de l'Ontario* du 18 janvier 2003.

1. (1) Le paragraphe 13 (1) du Règlement de l'Ontario 114/99 est abrogé et remplacé par ce qui suit :

ÉTAT FINANCIER JOINT À UNE REQUÊTE, À UNE DÉFENSE OU À UNE MOTION

(1) Si une requête, une défense ou un avis de motion comporte une demande d'aliments, une demande portant sur des biens ou une demande portant sur la possession exclusive du foyer conjugal et de son contenu :

- a) d'une part, la partie qui présente la demande signifie et dépose un état financier (formule 13 ou 13.1) avec le document qui contient la demande;
- b) d'autre part, la partie contre laquelle est présentée la demande signifie et dépose un état financier dans le délai prévu pour signifier et déposer une défense, une réponse ou un affidavit en réponse à la motion, que cette partie signifie ou non une défense, une réponse ou un affidavit en réponse à la motion.

FORMULE 13 : DEMANDE D'ALIMENTS SANS DEMANDE PORTANT SUR DES BIENS

(1.1) Si la requête, la défense ou l'avis de motion comporte une demande d'aliments, mais non une demande portant sur des biens ni une demande portant sur la possession exclusive du foyer conjugal et de son contenu, l'état financier utilisé par les parties en application des présentes règles est rédigé selon la formule 13.

FORMULE 13.1 : DEMANDE PORTANT SUR DES BIENS AVEC OU SANS DEMANDE D'ALIMENTS

(1.2) Si la requête, la défense ou l'avis de motion comporte une demande portant sur des biens ou une demande portant sur la possession exclusive du foyer conjugal et de son contenu, l'état financier utilisé par les parties en application des présentes règles est rédigé selon la formule 13.1, qu'une demande d'aliments soit également comprise ou non.

EXCEPTION : CERTAINES DEMANDES D'ALIMENTS

(1.3) Si la seule demande d'aliments que comporte la requête, la défense ou l'avis de motion est une demande d'aliments pour les enfants correspondant à la somme précisée dans la table des lignes directrices applicables sur les aliments pour les enfants, la partie qui présente la demande n'est pas tenue de déposer un état financier, sauf si la requête, la réponse ou l'avis de motion comporte également une demande portant sur des biens ou une demande portant sur la possession exclusive du foyer conjugal et de son contenu.

DISPOSITION TRANSITOIRE

(1.4) Quiconque dépose un état financier ou un nouvel état financier le 28 avril 2003 ou par la suite doit utiliser la formule 13 ou la formule 13.1, selon le cas, telle qu'elle est prise par le Règlement de l'Ontario 092/03, même si la cause a été introduite avant cette date.

(2) Le paragraphe 13 (2) du Règlement est modifié par substitution de «une défense ou un avis de motion» à «une défense, une réponse ou un avis de motion».

(3) Le paragraphe 13 (3) du Règlement est abrogé et remplacé par ce qui suit :

ÉTATS FINANCIERS DANS LES CAUSES PORTANT SUR LA GARDE D'UN ENFANT ET LE DROIT DE VISITE À UN ENFANT

(3) Si une requête, une défense ou un avis de motion comporte une demande de garde d'un enfant ou de droit de visite à un enfant et que la présente règle n'exige pas par ailleurs que les parties signifient et déposent des états financiers, le tribunal peut ordonner à chaque partie de signifier et de déposer un état financier rédigé selon la formule 13 dans le délai qu'il fixe.

(4) Le paragraphe 13 (7) du Règlement est abrogé et remplacé par ce qui suit :

DOCUMENTS FISCAUX REQUIS

(7) Le greffier ne peut accepter le dépôt de l'état financier d'une partie sans que, selon le cas :

- a) des copies des déclarations de revenus et des avis de cotisation de la partie relatifs aux trois années d'imposition précédentes soient jointes comme l'exige la formule;
- b) l'état financier comprenne une directive de la partie signée à l'intention de l'Agence des douanes et du revenu du Canada (formule 13A) aux fins de divulgation des imprimés des revenus et déductions de la partie;
- c) l'état financier comprenne une déclaration sous serment selon laquelle la partie n'est pas tenue de déposer une déclaration de revenus en raison de la *Loi sur les Indiens* (Canada).

2. La règle 23 du Règlement est modifiée par adjonction du paragraphe suivant :

SIGNIFICATION DE «VILLE»

(4.1) Pour l'application du paragraphe (4), une municipalité est considérée comme une ville si elle en était une le 31 décembre 2002.

3. (1) Les formules 8 et 8A du Règlement sont abrogées et remplacées par ce qui suit :

☐ IL S'AGIT D'UNE CAUSE DANS LAQUELLE, LE/LA REQUÉRANT(E) NE DEMANDE QUE LE DIVORCE.

À L'/AUX INTIMÉ(E)(S) : UNE CAUSE DE DIVORCE A ÉTÉ INTRODUITE CONTRE VOUS DEVANT CE TRIBUNAL. LES PRÉCISIONS À CE SUJET FIGURENT SUR LES PAGES CI-JOINTES.

CETTE CAUSE EST RÉGIE PAR LA VOIE ORDINAIRE DU SYSTÈME DE GESTION DES CAUSES. Aucune date d'audience n'a été fixée, mais si un avis de motion vous a été signifié, il porte une date d'audience et vous ou votre avocat devriez vous présenter au tribunal pour l'audition de la motion. Un juge responsable de la gestion de la cause sera affecté à la cause uniquement lorsque le greffier du tribunal aura fixé une date pour la tenue d'une conférence relative à la cause à la demande d'une partie ou qu'un avis de motion prévu au paragraphe 14 (5) aura été signifié avant la tenue d'une conférence relative à la cause. Si la date du procès n'a pas été fixée après 200 jours, le greffier du tribunal enverra un avertissement aux parties selon lequel la cause sera rejetée dans les 30 jours à moins qu'elles ne déposent la preuve que la cause a été réglée ou à moins que l'une d'elles ne demande la tenue d'une conférence relative à la cause ou d'une conférence en vue d'un règlement amiable.

SI VOUS NE LE FAITES PAS, LA CAUSE SE POURSUIVRA SANS VOUS ET LE TRIBUNAL PEUT RENDRE UNE ORDONNANCE ET L'EXÉCUTER CONTRE VOUS.**

SI VOUS DÉSIREZ PRÉSENTER VOTRE PROPRE DEMANDE, vous ou votre avocat devez remplir la section réservée à la demande dans la Défense, en signifier une copie aux requérants et en déposer une copie au greffe, accompagnée d'un Affidavit de signification.

- Si vous désirez présenter une demande d'aliments, mais non une demande portant sur des biens ou une demande portant sur la possession exclusive du foyer conjugal et de son contenu, vous **DEVEZ** remplir un État financier (formule 13), en signifier une copie aux requérants et en déposer une copie au greffe.
- Toutefois, si votre unique demande d'aliments consiste en une demande d'aliments pour les enfants dont le montant est précisé dans les tables des Lignes directrices sur les aliments pour les enfants, vous n'avez pas à remplir, à signifier ni à déposer un État financier.
- Si vous désirez présenter une demande portant sur des biens ou une demande portant sur la possession exclusive du foyer conjugal et de son contenu, qu'elle comprenne ou non une demande d'aliments, vous **DEVEZ** remplir un État financier (formule 13.1, et non pas la formule 13), en signifier une copie aux requérants et en déposer une copie au greffe.

(2) Except as provided in this Regulation, the board of governors of the college shall take all steps necessary for the orderly winding-up of the college.

(3) Sections 132, 230, 231 and 243 of the *Corporations Act* do not apply to the winding-up of the college under this Regulation and for greater certainty, a liquidator shall not be appointed under that Act.

(4) For the purpose of dealing with the winding-up of the college, a majority of the board of governors constitutes a quorum.

(5) Any budget established by the board of governors for winding-up of the college and any expenditures approved by it related to the winding-up are subject to the approval of the Minister and the budget shall not be finalized or the expenditures incurred until approved by the Minister.

(6) The board of governors shall co-operate fully with the Minister or any person acting on behalf of the Minister in planning and implementing the winding-up of the college.

(7) Subject to the direction of the Minister, the board of governors shall make provisions,

(a) for the retention of the corporate records of the college and of other appropriate records of the college after its winding-up; and

(b) for reasonable access by students and former students of the college to their academic records during and after the winding-up of the college.

(8) Nothing in this Regulation detracts from the obligations of the board of governors as an employer, including as the employer under the *Colleges Collective Bargaining Act* and as the employer under any collective agreements negotiated under that Act.

Appointment of administrator

2. (1) After the board of governors has taken all necessary steps to wind-up the college but before the college is dissolved, the Minister may appoint a person to temporarily administer the business and affairs of the college, subject to such conditions and restrictions as the Minister may impose upon the administrator.

(2) Subject to any conditions or restrictions that the Minister may have imposed, the administrator has all of the powers of the board of governors of the college and may exercise them for the purpose of completing the winding-up of the college.

(3) The board of governors of the college cannot exercise any of its powers, except powers in respect of matters that are explicitly reserved to it through conditions or restrictions imposed by the Minister on the administrator, while the administrator holds office.

(4) The Minister may terminate the appointment of the administrator when the Minister is satisfied that the temporary administration of the business and affairs of the college is no longer necessary.

(5) The administrator shall report to the Minister as required by the Minister and, if any powers in respect of matters are explicitly reserved to the board of governors, to the board of governors on those matters.

(6) The Minister may issue directions to the administrator with regard to any matter within the jurisdiction of the administrator and the administrator shall carry out the directions.

(7) No proceeding shall be commenced against the Crown or the Minister with respect to the appointment of an administrator under this section.

Proceedings against board of governors or administrator

3. (1) No action or other proceeding for damages or otherwise shall be instituted against the board of governors, an individual member of the board of governors or an administrator appointed under section 2 for any act done in good faith in the execution or intended execution of any duty or authority under this Regulation or for any alleged neglect or default in execution in good faith of any such duty or authority.

(2) Subsection (1) does not, by reason of subsections 5 (2) and (4) of the *Proceedings Against the Crown Act*, relieve the Crown of liability in respect of a tort committed by the board of governors, an individual member of the board of governors or an administrator to which the Crown would otherwise be subject and the Crown is liable under that Act for any such tort in the same manner as if subsection (1) had not been enacted.

Local improvement charges by-law

(1) A municipality that has the authority to undertake a work described in subsection 1 (2) may, in accordance with this Regulation, pass a by-law to undertake the work as a local improvement for the purpose of raising all or any part of the cost of the work by imposing special charges on lots abutting on the work or lots not abutting on the work but which will be immediately benefited by the work or a combination of these abutting and non-abutting lots.

Notice of local improvement charges by-law

3. Before passing a by-law to undertake a work as a local improvement under section 2, the municipality shall give notice of its intention to pass the by-law to the public and to the owners of the lots liable to be specially charged and the notice shall include, where applicable,

- (a) a general description of the proposed work;

Local improvement not to proceed for two years if petition received

4. (1) If, within 30 days after the notice with respect to a work is given to the public under section 3, the municipality receives a sufficient petition, as determined under section 7, against undertaking the work as a local improvement, the municipality shall not undertake the work as a local improvement within two years after the petition is received by the municipality.

(2) Despite subsection (1), a petition of the owners does not prevent the local municipality from undertaking the work as a local improvement if the municipality has received,

- (a) the approval of the Ontario Municipal Board under section 5 to undertake the work as a local improvement;
- (b) a recommendation from the Minister of Health and Long-Term Care or the board of health for the municipality that the construction of the work is necessary or desirable in the public interest on sanitary grounds; or

Application to Ontario Municipal Board

5. (1) A municipality may apply to the Ontario Municipal Board for approval to undertake a work as a local improvement and shall provide any information or material that the Board requires in connection with the application.

(2) Within 30 days after the municipality gives public notice under section 3 indicating that the municipality intends to apply to the Board for approval under this section, any owner liable to be specially charged may file an objection to the work being undertaken as a local improvement.

(3) The objection shall be filed with the clerk of the municipality and shall set out the objections and the reasons in support of the objections.

(4) If no objections are filed in accordance with this section, the municipality shall be deemed to have received the approval of the Board.

(5) If an objection is filed in accordance with this section and the municipality still intends to undertake the work as a local improvement with the approval of the Board, the municipality shall forward the objection to the Board together with the application or as soon thereafter as is reasonable.

(6) The Board shall hold a hearing to consider the application and the objections and may make any order with respect to the work as it considers appropriate.

(7) Once a municipality has given public notice under section 3 indicating that the municipality intends to apply to the Board for approval under this section,

- (a) the municipality shall not undertake the work as a local improvement until the approval of the Board has been received or is deemed to have been received or the municipality has given a new notice with respect to the work under section 3 which does not indicate it intends to apply to the Board under this section; and
- (b) the passing of a by-law to authorize undertaking the work as a local improvement shall be deemed not to be a contravention of this Regulation if the by-law provides that the by-law shall not take effect until the municipality receives the approval of the Board.

Petitions

6. (1) A petition in favour of undertaking a work as a local improvement must be signed by at least two-thirds of the owners representing at least one-half of the value of the lots liable to be specifically charged for the work.

(2) A petition against undertaking a work as a local improvement must be signed by at least a majority of the owners representing at least one-half of the value of the lots liable to be specially charged for the work.

(3) A petition in favour of or against undertaking a work as a local improvement shall contain a description of the lot of which each petitioner is the owner by its assessment roll number as shown on the last returned assessment roll, as most recently revised, or such other description as will enable the clerk of the municipality to identify it.

Sufficiency of petitions

7. (1) A petition for or against undertaking a work as a local improvement shall be filed with the clerk of the municipality and shall be deemed to be received by the municipality when it is so filed.

(2) The sufficiency of a petition for or against undertaking a work as a local improvement shall be determined and certified by the clerk of the municipality, and the clerk's certified determination is final and binding.

(3) Where the sufficiency of a petition has been determined by the clerk of the municipality, it shall be deemed to be a sufficient petition, even if the court of revision may change the lots to be specially charged, thereby increasing or reducing the number of the lots.

(4) Where it is necessary to determine the value of any lot and the value cannot be ascertained from the last returned assessment roll, as most recently revised, for any reason, the clerk of the municipality shall determine the value of the lot for the purposes of this Regulation and the value determined by the clerk is final and binding.

(5) Where two or more persons are jointly assessed for a lot, in determining the sufficiency of a petition,

(a) they shall be treated as one owner only; and

(b) the majority of them must sign the petition for the petition to be determined sufficient.

Withdrawal of petition

8. (1) A person cannot withdraw his or her name from a petition after the clerk has certified its sufficiency.

(2) If a person wishes to withdraw his or her name before the petition is certified, the person must file a written withdrawal with the clerk.

HOW COSTS ARE BORNE

Cost of local improvement

9. (1) Except as otherwise provided in this Regulation, for the purposes of raising the cost of undertaking a work as a local improvement, a municipality shall,

(a) determine the municipality's share of the cost, if any; and

(b) specially charge the owners' share of the cost in accordance with this Regulation,

(i) upon the lots abutting directly on the work according to the extent of their respective frontages by imposing an equal special charge per metre frontage,

(ii) upon lots not abutting on the work but immediately benefiting by it to the extent of their respective frontages by imposing an equal special charge per metre frontage, or

(iii) upon a combination of lots described in subclauses (i) and (ii).

(2) The following may be included in the cost of a work:

1. Engineering expenses.

2. Cost of advertising and service of notices.

3. Interest on short and long-term borrowing.

4. Compensation for lands taken for the purposes of the work or injuriously affected by it and the expenses incurred by the municipality in connection with determining such compensation.

5. Estimated cost of incurring long-term debt and any discount allowed to the purchasers of the debt.

(3) If lots described in subclause (1) (b) (ii) to be specially charged for a work are not equally benefited by the work, the lots shall be divided into as many areas as there are different levels of benefit so that each area includes all the lots that receive the same level of benefit.

(4) The municipality shall assign the cost of the work that is specially charged among the areas created under subsection (3) in the manner the municipality considers fair and the portion of the cost to be borne by an area shall be specially charged on the lots in the area according to the extent of their frontage by an equal special charge per metre frontage.

(5) The municipality may provide that the cost of a work to be specially charged upon lots is not required to be paid with respect to one or more of the lots that are exempt from taxation.

(6) If any Act, regulation or by-law provides that special charges under this Regulation are not required to be paid with respect to certain lots, then, despite the exemption, the lots shall for all purposes be subject to this Regulation and shall be specially charged but the special charges which become payable while such land remains exempt are not collectable from the owner but shall be paid by the municipality.

(7) Despite subsection (6) and sections 6 and 7, the owner of a lot to which subsection (6) applies may not petition in favour of or against undertaking a work as a local improvement and the owner of the lot and the value of the lot shall not be considered in determining the sufficiency of a petition.

Cost of water service pipe, private service connection, drive approach

10. (1) Subject to subsection (2), the cost of a water service pipe, private sewer connection or drive approach that is specially charged shall be specially charged on the particular lot for which it was constructed.

(2) Unless the two sides of a highway are served by separate water mains or sewers, the cost of water service pipes and private sewer connections shall be the cost of the work from the centre of the highway to the edge of the highway regardless of the location of the water main or sewer.

Deduction of grants, etc. from cost of work

11. (1) Where a municipality will receive a grant or other contribution in cash to be applied towards the cost of any work, the amount of the grant or other contribution shall be deducted from the entire cost of the work.

(2) Despite subsection (1), where a grant or other contribution is to be applied towards any excess cost of a work caused by reason of the work being constructed with a greater capacity than is required for the purposes of the lots that are specially charged, the amount of the grant or other contribution shall be applied to reduce the municipality's share of the cost.

Municipality's share of the cost

12. A municipality's share of the cost of a work shall include,

- (a) the entire cost of all hydrants constructed in connection with a water main and the entire cost of all culverts, catch basins and other works that are provided for surface drainage and that are incidental to the construction of a sewer or pavement;
- (b) so much of the cost of a work as is incurred at highway intersections;
- (c) any excess cost of a work caused by reason of the work being constructed with a greater capacity than is required for the purposes of the lots that are specially charged.

Cost of sewage outlet where lots are not benefited or served

13. Where the work is the construction of a sewer and it is necessary to construct an outlet for the sewage, and the lots fronting or abutting on the outlet or through which the outlet is constructed are not benefited or served by it, the cost of the outlet shall be deemed to be a part of the cost of the sewer and shall not be specially charged on the lots fronting or abutting on the outlet or through which the outlet is constructed.

Cost of sewage outlet on non-abutting benefited lands

14. Where the work is the construction of a sewer that is an outlet for sewage from lands not abutting on the work or is the installation and construction of sewage pumping works, force mains, siphons or other pumping facilities necessary for a sewer or sewer system in carrying sewage away from lots not abutting on the work, the cost of the work that is specially charged shall be specially charged on the lots not abutting on the work but immediately benefited by it.

Reductions and increases in special charges

15. (1) Where a corner lot has a flankage and a frontage that abuts on a work and the size and nature of the lot is such that all or part of the work that abuts on the flankage is of no benefit to the lot, a reduction shall be made in the amount to be specially charged in respect of that flankage sufficient to adjust the amount charged on that lot on a just and equitable basis as compared with the other specially charged lots.

(2) Where a lot other than a corner lot has a flankage and a frontage that abuts on a work and the size and nature of the lot is such that all or part of the work that abuts on the flankage is of no benefit to the lot, a reduction shall be made in the amount to be specially charged in respect of the flankage sufficient to adjust the amount charged on that lot on a just and equitable basis as compared with the other specially charged lots.

(3) Where a lot is for any reason in whole or in part unfit for building purposes, a reduction shall be made in the amount that is to be specially charged on the lot sufficient to adjust that amount as compared with the amount to be charged on lots fit for building purposes on a just and equitable basis.

(4) Where a lot has a frontage in excess of 30 metres and will not benefit from a work to the same degree as other lots benefited by the work, a reduction shall be made in the amount to be specially charged on the lot sufficient to adjust the amount charged on that lot on a just and equitable basis as compared with the other specially charged lots.

(5) A reduction or increase shall be made in the amount to be specially charged on a triangular or irregularly shaped lot sufficient, having regard to the situation, value and superficial area of the lot as compared with the other lots, to adjust the amount on a just and equitable basis.

(6) A reduction or increase required by this section shall be made by deducting from or adding to the total frontage of the lot liable to be specially charged a number of metres sufficient to make the proper reduction or increase, but the whole of the lot shall be charged with the amount to be specially charged on the lot.

(7) The amount of any reduction or increase in the amount to be specially charged on a lot shall be added to or deducted, respectively, from the municipality's share of the cost.

Reduction in special charges for work on lane

16. (1) Where the work is the constructing or paving of a lane or constructing a sewer for drainage purposes in a lane and the municipality is of the opinion that any lot abutting on the work is not benefited by the work, or is not benefited by it to the same extent as the other abutting lots, the municipality may reduce the amount to be specially charged on the not-benefited or less-benefited lot by deducting from the total frontage of the lot a number of metres sufficient to make the proper reduction.

(2) Where a reduction is made under subsection (1), the entire cost of the work shall be specially charged as if it were the cost with respect to the reduced frontage, but the whole of the lot shall be charged with the amount to be specially charged on the lot.

Apportioning special charges where lot is subdivided

17. (1) Where a lot that is or is to be specially charged is subdivided into two or more new lots, the municipality may apportion the special charges that would have otherwise been charged on the original lot among the new lots according to the extent of their respective frontages by imposing an equal special charge per metre frontage.

(2) Despite subsection (1), where the municipality is of the opinion that the new lots that are abutting on the work receive a greater benefit than the new non-abutting lots, the municipality may increase the amount to be specially charged on the new abutting lots and shall make a corresponding reduction in the amount to be specially charged on the new non-abutting lots.

(3) Despite subsection (1), where a municipality is of the opinion that a new lot that does not abut on the work does not benefit from the work to the same extent as the other new non-abutting lots, the municipality may adjust the special charges to be imposed on the new non-abutting lots to reflect their different levels of benefit.

(4) Section 20 applies with necessary modifications to the special charges imposed under subsection (1).

(5) The local improvement roll shall be amended to reflect the changes made under this section.

(6) For the purpose of subsection (1),

 - (b) a dewatering well constructed by the use of a jetted point.

(7) The person who constructs a well shall ensure that the annular space is sealed to prevent any movement of water, natural gas, contaminants or other material between subsurface formations or between a subsurface formation and the ground surface by means of the annular space.

(8) If a well, other than a test hole or dewatering well, is constructed with a well pit, subsection (4) does not apply to the well pit but does apply, with necessary modifications, from the bottom of the annular space to the bottom of the well pit.

(9) If a test hole or dewatering well, other than a test hole or dewatering well referred to in subsection (6), is constructed with a well pit, subsection (4) does not apply to the well pit but does apply, with necessary modifications, from the bottom of the annular space to the bottom of the well pit.

(10) If a well is constructed by digging, the annular space shall be filled to the ground surface in accordance with the following rules:

1. The annular space from the bottom of the well to a depth not closer to the ground surface than 2.5 metres shall be filled with clean, washed and disinfected gravel or sand.
2. The remainder of the annular space shall be filled with suitable sealant.

(11) Subsection (10) does not apply to a test hole or dewatering well.

(12) If a well is constructed by the use of a driven point, the annular space shall be filled to the ground surface using a material and a method approved in writing by the Director that, in the opinion of the Director, will ensure that there are no gaps or air spaces in the material placed in the annular space.

(13) Subsection (12) does not apply to a test hole or dewatering well.

(14) If a well is deepened, this section and section 13 apply, with necessary modifications, as if a new well were being constructed, but continued use of the casing in the existing well is permitted if the casing appears sound.

(15) This section does not apply to a well that is constructed with a casing surrounded by a permanent casing of larger diameter (sometimes referred to as a double walled casing), but,

- (a) subsections (1) to (7) and (14) apply, with necessary modifications, to the annular space outside the outer casing; and
- (b) subsections (4), (6) and (7) apply, with necessary modifications, to the annular space between the casings, unless there is no ground water leaking into the annular space between the casings.

18. Section 15 of the Regulation is revoked and the following substituted:

DISINFECTION

15. (1) When the construction of a well is completed, the water in the well shall be chlorinated to a concentration of approximately 50 milligrams of chlorine per litre of water and maintained at that concentration for a period of at least 12 hours.

(2) If pumping equipment is installed in a well,

- (a) the chlorinated water shall be brought into contact and maintained in contact with all areas of the pumping equipment that will come into contact with the water in the well when the well is in use; and
- (b) at the end of the 12-hour period of chlorination, the chlorinated water shall be pumped from the well until no odour of chlorine remains in the well water.

(3) Subsections (1) and (2) do not apply if the Director gives written approval to another method of disinfection and the approved method is complied with.

(4) This section does not apply to a test hole, dewatering well or flowing well.

19. Section 17 of the Regulation is revoked and the following substituted:

17. (1) If a connection to the casing of a drilled well is made below the ground surface, a well seal or pitless adapter shall be used and the connection shall be made watertight.

(2) A cutting torch shall not be used to make an opening in the casing wall to accommodate a pitless adapter.

(3) If a connection to the casing of a bored or dug well is made below the ground surface,

(a) the connection shall be made watertight with durable bonding material; and

(b) the outside trench excavation shall be filled with suitable sealant extending from the casing a minimum distance outward of 0.5 metres and extending from the bottom of the excavation to within 0.5 metres of the ground surface.

(4) If a pump is not located directly over a well, the top of the casing shall be sealed with a commercially manufactured vermin-proof well cap.

(5) If a pump is installed directly over a well,

(a) the casing shall be extended to at least 40 centimetres above the ground surface or, if a floor has been constructed around or adjacent to the casing, to at least 15 centimetres above the floor; and

(b) the top of the casing shall be shielded in a manner sufficient to prevent entry of any material that may impair the quality of the water in the well.

20. Section 18 of the Regulation is revoked and the following substituted:

18. (1) If pumping equipment is installed in a drilled well, other than a well in which the casing is used to transmit water out of the well,

(a) an air vent shall be installed with a minimum inside diameter of,

(i) 0.3 centimetres, if the inside diameter of the casing is less than 12.7 centimetres, or

(ii) 1.2 centimetres, if the inside diameter of the casing is 12.7 centimetres or more;

(b) the air vent,

(i) shall be of sufficient length to extend above the covering of the well pit, if a well pit exists, or

(ii) shall extend above the ground surface a distance sufficient to prevent the entry of flood water from any anticipated flooding in the area but not less than 40 centimetres, if no well pit exists;

(c) the air vent shall extend above the well cap;

(d) the open end of the air vent shall be shielded and screened in a manner sufficient to prevent the entry of any materials into the well; and

(e) if natural gas is present, the air vent shall be extended to the outside atmosphere in a manner that will safely disperse all gases.

(2) Subsection (1) does not apply to an uncased test hole or an uncased dewatering well.

21. Subsections 19 (1), (2), (3) and (4) of the Regulation are revoked and the following substituted:

(1) If the yield of water from a well is tested,

(a) the water level in the well shall be measured and recorded on the well record for the well,

(i) immediately before commencement of pumping,

(ii) at one minute intervals or more frequently during the first five minutes of pumping,

(iii) at five minute intervals or more frequently during the next 25 minutes of pumping,

(iv) at 10 minute intervals or more frequently during the next 30 minutes of pumping,

(v) at one minute intervals or more frequently during the first five minutes after pumping stops,

(vi) at five minute intervals or more frequently during the next 25 minutes after pumping stops, and

(vii) at 10 minute intervals or more frequently during the next 30 minutes after pumping stops;

(b) the water level in the well shall be measured by means of a plastic or metal tape that is clean or an air line or electrical device that is clean;

(c) water shall be pumped from the well at a steady rate, continuously for at least one hour; and

(d) the rate of pumping during the test shall be recorded on the well record.

(2) If water cannot be pumped from the well continuously for one hour in accordance with clause (1) (c), no further measurements are required under clause (1) (a) and there shall be recorded on the well record,

- (a) the reason pumping was discontinued;
- (b) the rate of pumping and the length of the pumping period; and
- (c) the water level measurements made.

22. Section 20 of the Regulation is amended by adding the following subsection:

(1.1) Subsection (1) does not apply to a test hole or dewatering well.

23. (1) Subsection 21 (1) of the Regulation is revoked and the following substituted:

(1) If a well is abandoned, the person abandoning the well shall ensure that the following steps are taken and, unless otherwise specified, they shall be taken in the sequence in which they are set out in this subsection:

1. If the well already has a well tag, the well tag shall be safeguarded and, when the steps required by paragraph 10 are taken, the well tag shall be reused for the purpose of complying with that paragraph.
 2. All equipment and debris in the well shall be removed, but well casing shall not be removed unless it has collapsed.
 3. The volume of water in the well shall be estimated and at least that volume of water shall be pumped from the well.
 4. At least 25 litres of a solution of 50 milligrams of chlorine per litre of water shall be put into the well and the water remaining in the well shall be chlorinated to at least that concentration.
 5. The well, including the annular space, shall be plugged by,
 - i. in the case of any well, placing a continuous column of an abandonment barrier from the bottom of the well upward to approximately one metre below the ground surface so that it prevents any movement of water, natural gas, contaminants or other material between subsurface formations or between a subsurface formation and the top of the abandonment barrier, or
 - ii. in the case of a well that is greater than 65.0 centimetres in diameter, taking the steps described in subsection (1.2).
 6. If it was not removed under paragraph 2, the well casing shall be removed to a minimum depth of two metres below the ground surface, and the removal shall be done during the taking of the steps required by paragraph 5 but after the material placed in the well under that paragraph has reached a level approximately two metres below the ground surface.
 7. If an abandonment barrier placed under paragraph 5 contains cement, it shall be allowed to set until firm and, if necessary, it shall then be topped up to approximately one metre below the ground surface.
 8. Unless they are used or maintained for future use, the above ground structures associated with the well shall be dismantled at any time before the steps required by paragraph 10 are taken.
 9. Below ground concrete structures, foundations and slabs shall be removed, at any time before the steps required by paragraph 10 are taken, at least to a depth adequate to accommodate the sealing measures described in paragraph 10.
 10. The well shall be sealed at the ground surface by,
 - i. placing at least 50 centimetres in vertical thickness of bentonite chips or pellets in the well opening, with the existing well tag, if any, pushed two centimetres into the top of the bentonite chips or pellets, and
 - ii. covering the entire well opening to the ground surface by at least 30 centimetres in vertical thickness of soil cover to prevent inadvertent or unauthorized access.
 11. The disturbed area shall, to the extent practical, be revegetated.
- (1.1) The following rules apply for the purpose of paragraph 5 of subsection (1):
1. The abandonment barrier for a well that is less than or equal to 6.5 centimetres in diameter must be compatible with the quality of the water found in the well and must be a slurry consisting of clean water, Portland cement and not more than 5 per cent bentonite.
 2. The abandonment barrier for a well that is more than 6.5 centimetres in diameter must be compatible with the quality of the water found in the well and must be,
 - i. a slurry consisting of clean water and at least 20 per cent bentonite solids,
 - ii. a slurry consisting of clean water, Portland cement and not more than 5 per cent bentonite,
 - iii. a slurry consisting of clean water and Portland cement,
 - iv. a slurry consisting of clean water, Portland cement and clean, disinfected sand,

- v. a slurry consisting of equal weights of Portland cement and clean, disinfected gravel, mixed with clean water,
- vi. a slurry (sometimes called concrete slurry) consisting of clean water, Portland cement, clean, disinfected sand, and clean, disinfected gravel, or
- vii. other material approved in writing by the Director, if the Director is of the opinion that the performance of the other material is equivalent to the performance of a slurry referred to in subparagraphs i to vi.

- 3. If the well is in contact with contaminants, the abandonment barrier must be stable in the presence of the contaminants.
- 4. Subject to paragraph 5, an abandonment barrier that is wet shall be placed using a tremie pipe, with the bottom of the tremie pipe immersed in the rising accumulation of the abandonment barrier until the required level has been reached.
- 5. In the case of a well that is less than or equal to 6.5 centimetres in diameter, the abandonment barrier may be placed without the use of a tremie pipe, by pouring it down the casing before the casing is removed.

(1.2) The steps referred to in subparagraph 5 ii of subsection (1) with respect to a well that is greater than 65.0 centimetres in diameter, which shall be taken in the sequence in which they are set out in this subsection, are the following:

- 1. Clean, disinfected sand or pea gravel shall be placed from the bottom of the well to the top of the deepest formation supplying water to the well or to the top of the water intake zone of the well, whichever is deeper.
- 2. At least 0.1 metre of bentonite chips or pellets shall be placed over the sand or pea gravel.
- 3. If the water level can be drawn down to the top of the bentonite chips or pellets,
 - i. the water level shall be drawn down to the top of the bentonite chips or pellets,
 - ii. at least 0.3 metres of a bentonite slurry that consists of clean water and at least 20 per cent bentonite solids and that is compatible with the quality of the water found in the well shall be placed over the bentonite chips or pellets, and
 - iii. clean gravel, sand, silt or clay shall be dropped over the bentonite slurry to fill the remainder of the well, while maintaining at least 0.3 metres of the bentonite slurry above the rising accumulation of gravel, sand, silt or clay.
- 4. If the water level cannot be drawn down to the top of the bentonite chips or pellets, the remainder of the well shall be filled with an abandonment barrier, which may be interspersed with clean, disinfected sand or pea gravel placed in each water intake zone of the well.

(1.3) If the well is a flowing well, commercially manufactured drilling mud that does not impair the quality of the water with which it comes in contact may be used, in taking the steps required by subsection (1), to assist with drilling or placement of an abandonment barrier, but the drilling mud may not be used as an abandonment barrier.

(1.4) On completion of the abandonment of a well, the person abandoning the well shall,

- (a) complete the well record for the well, including the record of Global Positioning System coordinates for the well location;
- (b) deliver a copy of the well record to the well owner,
 - (i) within 14 days after the date on which the well construction equipment is removed from the site, or
 - (ii) within 60 days after the date on which the well construction equipment is removed from the site, if the well is part of a well cluster for which one well record was prepared in accordance with section 11.1; and
- (c) forward a copy of the well record to the Director,
 - (i) within 30 days after the date on which the well construction equipment is removed from the site, or
 - (ii) within 75 days after the date on which the well construction equipment is removed from the site, if the well is part of a well cluster for which one well record was prepared in accordance with section 11.1.

(1.5) A person constructing a well that is discontinued before completion shall forthwith abandon the well.

(2) Subsections 21 (4) and (5) of the Regulation are revoked and the following substituted:

- (4) A well owner shall forthwith abandon a well that,
 - (a) produces salty, sulphurous or mineralized water;
 - (b) produces water that is not potable;
 - (c) contains natural gas or other gas;
 - (d) permits any movement of natural gas, contaminants or other materials between subsurface formations or between a subsurface formation and the ground surface; or
 - (e) is constructed in contravention of any provision of this Regulation dealing with the location or spacing of wells, the methods and materials used in the construction of wells or the standards of well construction.

(5) Subsection (4) does not apply if the well owner has the written consent of the Director.

(5.1) Subsection (2) and clauses (4) (a), (b) and (c) do not apply to a test hole or dewatering well.

(5.2) Clauses (4) (a) and (b) do not apply to a well that,

(a) is used or intended for use as a source of water for agriculture; and

(b) is not used as a source of water for human consumption.

24. The Regulation is amended by adding the following section:

PROTECTION OF WELL TAG

22. (1) No person shall use a well tag obtained from the Ministry, except in accordance with this Regulation.

(2) No person shall remove a well tag affixed in accordance with this Regulation, except,

(a) in accordance with subsection 11 (3.2) or (3.3) or paragraph 1 of subsection 21 (1); or

(b) with the written consent of the Director.

(3) No person shall deface, alter, conceal or obstruct a well tag affixed in accordance with this Regulation.

25. Forms 1 to 9 of the Regulation are revoked.

26. (1) Subject to subsection (2), this Regulation comes into force on the first day of the fourth month after the month in which this Regulation is filed.

(2) Subsection 7 (1) comes into force on January 1, 2004.

Elève d'un conseil

2. (1) Sous réserve des paragraphes (2) à (5), pour l'application du présent règlement, un élève est un élève d'un conseil s'il est inscrit à une école qui relève du conseil.

(2) L'élève qui reçoit un enseignement dans un programme d'enseignement dispensé par un conseil dans un établissement visé ou mentionné au paragraphe 20 (3) n'est pas un élève inscrit à une école qui relève du conseil pour l'application du paragraphe (1).

(4) Pour l'application du présent règlement, les élèves qui reçoivent un enseignement aux termes de l'entente visée à l'alinéa (3) c) sont des élèves du conseil scolaire de district séparé et non du conseil public.

(5) Pour l'application du présent règlement, les élèves suivants ne sont pas des élèves d'un conseil même s'ils sont inscrits à une école du conseil :

- «B» représente 0,5 fois le nombre d'élèves à mi-temps du conseil inscrits le 31 octobre 2003;
- «C» représente le total de tous les membres dont chacun est calculé pour chaque élève à temps partiel du conseil inscrit le 31 octobre 2003, à l'exclusion des élèves du secondaire qui sont âgés d'au moins 21 ans le 31 décembre 2003 et correspond au nombre de minutes pour lesquelles il est inscrit en vue de recevoir un enseignement en classe pendant l'horaire qui inclut le 31 octobre 2003, à un cours autre qu'un cours d'études personnelles;
- «D» représente le produit du nombre de jours que compte l'horaire visé à la définition de «C» par 300.

(5) Si le présent règlement exige que les élèves soient dénombrés, mais qu'il ne prévoit pas que le dénombrement soit effectué en fonction de l'effectif quotidien moyen ou de l'effectif à temps plein ou l'équivalent, chaque élève, qu'il soit à temps plein, à mi-temps ou à temps partiel, compte pour un élève.

Niveau d'exactitude

7. (1) L'obligation pour les conseils de se conformer aux lois dont l'application relève du ministre et aux textes pris en application de telles lois, notamment des règlements, des politiques, des lignes directrices ou des directives, est une condition du versement des subventions prévues par le présent règlement.

(2) Si le conseil contrevient à une loi dont l'application relève du ministre ou à un texte pris en application d'une telle loi, notamment un règlement, une politique, une ligne directrice ou une directive, le ministre peut retenir tout ou partie de la subvention qui lui est payable par ailleurs en application de la Loi.

(3) Sans préjudice de la portée générale du paragraphe (2), si le conseil contrevient au paragraphe 170.2 (2) ou 170.2.1 (2) de la Loi, le ministre peut retenir tout ou partie de la subvention qui lui est payable par ailleurs en application de la Loi.

Redressement du trop-payé

8. (1) Si un conseil a reçu une somme supérieure à celle qui lui était payable en application d'un règlement sur les subventions générales, le trop-payé, s'il n'a pas été déduit des subventions qui lui sont payables en application d'autres règlements sur les subventions générales, est déduit de celles qui lui sont payables en application du présent règlement.

(2) Si un ancien conseil a reçu une somme supérieure à celle qui lui était payable en application d'un règlement sur les subventions générales, le trop-payé, s'il n'a pas été déduit des subventions qui sont payables au conseil désigné ou au conseil secondé qui lui est rattaché en application d'autres règlements sur les subventions générales, est déduit de celles qui sont payables à ces derniers en application du présent règlement, conformément aux facteurs de répartition pertinents établis aux termes des directives que la Commission d'amélioration de l'éducation a publiées en septembre 1997 sous le titre de «Directives pour la répartition de l'actif et du passif des conseils existants parmi les conseils scolaires de district».

Redressement du moins-payé

9. (1) Si un conseil a reçu une somme inférieure à celle qui lui était payable en application d'un règlement sur les subventions générales, le moins-payé qui reste impayé est ajouté aux subventions qui lui sont payables en application du présent règlement.

(2) Si un ancien conseil a reçu une somme inférieure à celle qui lui était payable en application d'un règlement sur les subventions générales, le moins-payé qui reste impayé est ajouté aux subventions qui sont payables au conseil désigné ou au conseil secondé qui lui est rattaché en application du présent règlement, conformément aux facteurs de répartition pertinents établis aux termes des directives que la Commission d'amélioration de l'éducation a publiées en septembre 1997 sous le titre de «Directives pour la répartition de l'actif et du passif des conseils existants parmi les conseils scolaires de district».

(6) Malgré les paragraphes (4) et (5), la somme calculée par ailleurs en application du présent article pour un programme d'enseignement admissible est réduite de la somme que le ministre estime indiquée compte tenu des frais raisonnables que le conseil engage à l'égard du programme si celui-ci, selon le cas :

- (6) Pour l'application du paragraphe (5), le total de la part des économies liées au R.R.E.M.O. du conseil qu'il attribue aux élèves de l'élémentaire et de celle qu'il attribue à ceux du secondaire ne doit pas dépasser les économies liées au R.R.E.M.O. du conseil.
- (7) Si les dépenses liées aux classes pour l'exercice d'un conseil, calculées conformément au paragraphe (5), sont supérieures à ses dépenses nettes liées aux classes pour l'exercice, calculées conformément au paragraphe (3), le conseil est réputé se conformer au paragraphe (2) s'il peut prouver, dans le document remis au ministère en application de l'alinéa 231 (11) c) de la Loi, que l'excédent se justifie :
- a) soit par des sommes versées dans un fonds de réserve pour dépenses liées aux classes;
 - b) soit par des dépenses autres que des dépenses non liées aux classes.
- (8) Pour l'application du paragraphe (7) :
- a) la somme correspondant à 91,7 pour cent de toute somme versée dans un fonds de réserve pour dépenses liées à l'éducation de l'enfance en difficulté est réputée une somme versée dans un fonds de réserve pour dépenses liées aux classes pour l'application de l'alinéa (7) a);
 - b) la somme versée au titre de la part du déficit d'un exercice antérieur ne constitue pas une dépense non liée aux classes si cette part est imputable aux dépenses liées aux classes pour l'application de l'alinéa (7) b).

Dépenses obligatoires, éducation de l'enfance en difficulté

42. (1) Sous réserve du paragraphe (2), le conseil scolaire de district fait en sorte que la somme qu'il affecte pendant l'exercice à des mesures d'éducation de l'enfance en difficulté pour ses élèves ne soit pas inférieure à l'excédent de la somme liée à l'élément éducation de l'enfance en difficulté du conseil pour l'exercice sur la part des économies liées au R.R.E.M.O. pour le conseil qui est imputable à la dépense qu'il affecte à des mesures d'éducation de l'enfance en difficulté pendant l'exercice.

(2) Si la dépense nette que le conseil affecte à des mesures d'éducation de l'enfance en difficulté pour ses élèves pendant l'exercice est inférieure à la somme exigée en application du paragraphe (1), le conseil verse la différence dans son fonds de réserve pour l'éducation de l'enfance en difficulté.

(3) Pour l'application du présent article, la dépense nette qu'un conseil affecte à des mesures d'éducation de l'enfance en difficulté pendant l'exercice est calculée de la manière suivante :

1. Additionner la part de la somme visée au paragraphe 233 (1) de la Loi qui se trouve dans le fonds de réserve du conseil le 31 août 2004, immédiatement avant le virement prévu au paragraphe 233 (2) de la Loi, qui est imputable à l'éducation de l'enfance en difficulté à la dépense qu'il affecte à des mesures d'éducation de l'enfance en difficulté pour ses élèves pendant l'exercice 2003-2004.
2. Déduire les sommes suivantes de la somme calculée en application de la disposition 1 :
 - i. Les sommes éventuelles virées du fonds de réserve du conseil pour l'éducation de l'enfance en difficulté pendant l'exercice.

- ii. Les autres sommes éventuelles virées de réserves pendant l'exercice qui sont imputées à la dépense que le conseil affecte à des mesures d'éducation de l'enfance en difficulté pour ses élèves.
- iii. Les recettes éventuelles provenant d'autres sources que le conseil reçoit pendant l'exercice et qu'il affecte pendant cet exercice à des mesures d'éducation de l'enfance en difficulté pour ses élèves.

(4) Le présent article ne doit pas être interprété de façon à limiter la somme que le conseil peut affecter à des mesures d'éducation de l'enfance en difficulté.

Dépenses obligatoires, immobilisations

43. (1) Sous réserve du paragraphe (2), le conseil scolaire de district fait en sorte qu'une somme égale au total des sommes suivantes, calculées pour le conseil en application de l'article 37, soit affectée à l'acquisition d'immobilisations au cours de l'exercice :

1. La somme liée à la réfection des écoles.
2. La somme liée aux nouvelles places.
3. La somme liée aux engagements d'immobilisations non réalisés.

(3) Pour l'application du présent article, la dépense nette qu'un conseil engage pour faire l'acquisition d'immobilisations au cours de l'exercice est calculée en déduisant les sommes suivantes de la dépense qu'il engage pour faire l'acquisition d'immobilisations au cours de cet exercice.

1. Les sommes éventuelles virées du fonds de réserve pour les installations d'accueil pour les élèves au cours de l'exercice.
2. Les sommes éventuelles virées du fonds de réserve du produit de disposition au cours de l'exercice et qui sont affectées au cours de cet exercice à des dépenses engagées pour faire l'acquisition d'immobilisations.

(4) Le présent article ne doit pas être interprété de façon à limiter la somme que le conseil peut affecter à l'acquisition d'immobilisations.

44. (1) Chaque conseil scolaire de district veille à ce que les dépenses nettes d'administration et de gestion qu'il engage au cours de l'exercice ne soient pas supérieures à son plafond fixé des dépenses d'administration et de gestion.

(2) Le plafond des dépenses d'administration et de gestion du conseil pour l'exercice est calculé de la manière suivante :

1. Soustraire la part des économies liées au R.R.E.M.O. pour le conseil qui est imputable aux dépenses d'administration et de gestion pour l'exercice de l'élément administration et gestion du conseil pour l'exercice.
2. Ajouter à la somme calculée en application de la disposition 1 la part du fonds de flexibilité du conseil qui :
 - i. d'une part, n'est pas affectée en application de la disposition 43 du paragraphe 41 (5),
 - ii. d'autre part, est affectée par le conseil au plafond des dépenses d'administration et de gestion.

- a) constitue une dépense d'administration la dépense du conseil qui est classée comme telle dans le plan comptable uniforme du ministère;
- b) constitue une dépense de gestion la dépense du conseil qui est classée comme telle dans le plan comptable uniforme du ministère.

(4) Pour l'application du présent article, les dépenses nettes d'administration et de gestion qu'un conseil engage au cours de l'exercice sont calculées de la manière suivante :

1. Calculer le total des dépenses d'administration et des dépenses de gestion que le conseil engage au cours de l'exercice.
2. Additionner la part de la somme visée au paragraphe 233 (1) de la Loi qui se trouve dans le fonds de réserve du conseil le 31 août 2004, avant le virement prévu au paragraphe 233 (2) de la Loi, qui est imputable aux dépenses d'administration et de gestion et la somme calculée en application de la disposition 1.

5. (1) In this section,

"hedging agreement" means an agreement to minimize the risks associated with making payments in a foreign currency under a cross border lease or any related service agreement and to minimize any costs associated with the making of such payments, and includes a foreign currency exchange agreement, deposit agreement and pledge, payment undertaking, assumption agreement, forward payment agreement, payment arrangement agreement and any other similar financial instrument;

"payment arrangement agreement" means a hedging agreement entered into in connection with a cross border lease or a related service agreement under which either or both of the following are provided for:

Funds or securities are set aside for the sole purpose of allowing the City, or a person on the City's behalf, to make all or part of the payments that the City is required to make under the lease or related service agreement at the times they are due under the lease or related service agreement, where the funds or securities set aside are to be,

- i. in the same currency as the currency in which the payments are required to be made under the lease or the related service agreement, and
- ii. in an amount which, together with interest earnings on such funds or securities, will be sufficient to make the payments.

(2) A hedging agreement made by the City in connection with a cross border agreement or a related service agreement is prescribed, for the purposes of section 401 of the Act, as a financial agreement that a municipality may enter in relation to a debt that arises out of cross border lease agreement or a related service agreement.

(3) A hedging agreement made by the City in connection with a cross border agreement or a related service agreement is deemed to be a debenture for the purposes of section 411 of the Act and may require that payments made under the hedging agreement be expressed and made in a foreign currency set out in the Schedule.

(4) For greater certainty, a regulation made under section 411 of the Act with respect to debentures shall not apply to a hedging agreement that is deemed to be a debenture under subsection (3).

(5) Despite subsection (3), a hedging agreement, other than a hedging agreement referred to in subsection (6), shall require that any payments of fixed unconditional amounts made by the City shall be expressed and payable in Canadian currency.

(6) A hedging agreement may provide for payments of fixed unconditional amounts to be expressed and payable in a foreign currency set out in the Schedule if,

- (b) the hedging agreement is a payment arrangement agreement.

(7) A cross border lease and all the hedging agreements entered into in connection with the cross border lease, when read together, shall provide for the reduction of currency risk with respect to the entire amount of fixed unconditional payments under the lease.

(2) The City shall enter a hedging agreement in connection with a cross border lease or a related service agreement within five business days after the day the lease or related service agreement is made.

(3) The City may enter a hedging agreement to replace an existing hedging agreement made in connection with a cross border lease or a related service agreement only if,

Indemnity

7. The City shall not enter into a cross border lease or a related service agreement that provides that the City may indemnify a person for taxes payable by that person in respect of payments made by the City under the lease or agreement unless the City first obtains legal or financial advice addressing whether the proposed indemnity provisions are consistent with tax indemnity provisions in comparable commercially available cross border leasing or related servicing arrangements.

City debt and financial obligation limit

8. The City's treasurer shall not include the amounts payable in any given year under a cross border lease or a related service agreement in the update of its debt and financial obligation limit under subsection 4 (2) of Ontario Regulation 403/02 or in the calculation performed under subsection 4 (3) of that regulation if the treasurer has in a previous year included in an update or calculation under those subsections the annual amounts payable under another method of financing for the subway cars that are the subject matter of the cross border lease or related service agreement.

Restrictions for multiple radionuclides: If two or more radionuclides are present, the following relationship, based on International Commission on Radiological Protection (ICRP) Publication 26, must be satisfied and, if not satisfied, the standard shall be considered to have been exceeded:

$$\frac{c_1}{C_1} + \frac{c_2}{C_2} + \dots + \frac{c_i}{C_i} \leq 1$$

where c_1 , c_2 and c_i are the observed concentrations, and C_1 , C_2 and C_i are the maximum acceptable concentrations for each contributing radionuclide.
